## INTRODUCTION

**Vedder Sanitary Services** is an Australian family owned and operated business, specializing in Sanitary Disposal and Washroom Hygiene Services.

**Vedder Sanitary Services** has a combined 35 years hands on experience between both directors, is one of the oldest independent Australian Owned Company in this field, with experience and resources to manage Sanitary Waste Disposal and a complete range of Washroom Hygiene Services.

## VEDDER STATEMENT

Being in the hygiene service industry we always believe that the **“Customer Comes First”**. Our aim is to provide quality professional service on a timely basis that meets all relevant regulations and standards at very competitive prices. Today we are still maintaining and servicing a substantial client base dating back to when we first started operations.

Our objectives are to constantly improve the efficiency and quality of our services provided to achieve Customer satisfaction and improving our position in a competitive market place without compromising quality.

This includes ongoing staff training using the best available equipment and consumables together with research design and development and manufacturing of new innovative equipment consumables and improving our service techniques.

We encourage new customers to see for themselves how the process works, that we provide new sanitized bins at every single service. We invite new customers to visit our Head Office / Depot, to see how their old used bins are washed, sanitized and ready to be put back in service.
